

HATENBOERWATER

Fresh in water since 1906.

Thermometer

Art nr.: 0590-000008

The folding thermometer measures the temperature quickly and accurately. It measures at an angle greater than 30 ° and is therefore used flexible. After the measurement you can easily snap shut the sensor and securely store it - for example in your pocket - until the next measurement. The folding thermometer is compliant with HACCP guidelines and the standard EN 13485.

- The folding thermometer can be used for various applications.
- Because of his robust metal folding mechanism and the long, stable measurement probe it is suitable for core temperature measurements.
- With protection class IP65 you can clean the thermometer under running water.
- The rubber coating of the thermometer makes it very comfortable to hold.
- The large, illuminated display ensures the correct reading under any circumstance.
- With the included color indicators, each thermometer can be uniquely recognizable and you can be sure that the thermometer is used for which it was intended.
- It has an automatic recognition of final value (Auto-Hold) and min and max values are also stored.
- It is the first waterproof folding thermometer.

Range	-50 - 250°C
Accuracy	±1.0 °C
(-50 ... -30.1 °C)	0.1 °C / °F / °R
±0.5 °C	10 sec
(-30 ... +99.9 °C)	-30 ... +70 °C
±1 % v.d. mw.	-20 ... +60 °C
(+100 ... +250 °C)	2 mignon cellen AAA
Resolution	0.1 °C / °F / °R
Response	10 sec
Storage temperature	-30 ... +70 °C
Operating temperature	-20 ... +60 °C
Battery type	2 mignon cells AAA
Battery life	100 h
Weight	165 g
Dimensions	265 x 48 x 19 mm
Material	ABS/TPE/metal
